Case Study: Banking Application – Positive Test Scenarios and Test Cases

AIM:

To identify and prepare positive test scenarios and test cases for the Banking Application to verify that all major banking functionalities, such as customer login, balance enquiry, transaction history, fund transfers, bill payments, beneficiary management, statement downloading, and secure logout, work correctly with valid inputs while ensuring accuracy, security, and reliability.

1. Problem Description

A Banking Application allows authenticated customers to view balances and statements, transfer funds, pay bills and manage beneficiaries. Testing verifies that valid banking operations complete accurately and securely.

2. Functional Requirements

1. Customers must authenticate before accessing accounts.
2. Account balances and statements must be displayed accurately.
3. Transfers require valid beneficiaries and valid amounts.
4. Transfers cannot exceed the available balance.
5. Sensitive transactions require required verification such as OTP.
6. The system must prevent duplicate transactions and protect session data.
7. The system must provide transaction references and appropriate error messages.

3. Positive Test Cases

Positive testing verifies expected behavior using valid inputs.

Test Case ID	Test Scenario	Test Input / Action	Expected Result	Status
PT01	Login with valid credentials	Enter valid customer ID and password	Customer dashboard displayed	Pass
PT02	View account balance	Select an active account	Correct available balance displayed	Pass
PT03	View transaction history	Select a date range with transactions	Matching transactions displayed	Pass
PT04	Transfer within available balance	Enter valid beneficiary and amount	Transfer processed and reference number displayed	Pass

PT05	Pay a registered bill	Select biller and enter valid amount	Payment completed and receipt generated	Pass
PT06	Add beneficiary	Enter valid beneficiary details and complete required verification	Beneficiary added successfully	Pass
PT07	Download account statement	Select valid account and date range	Statement downloaded correctly	Pass
PT08	Logout securely	Click Logout	Session ends and login page appears	Pass

Conclusion

The positive test cases help verify that the Banking Application meets its requirements and responds appropriately to the tested conditions.
